

E-Bulletin for the “Youth Are Here” Project

(1st October -November-30th December 2013)

October 1st - October 30th 2013

Be Aware, Youth Are Here! Dialogue Seminar and Evaluation Meeting: The “Dialogue Seminar” and “Evaluation Meeting” were carried out as the 4th section of the project by the EuroMed Youth Centre to improve the connection between youth workers and youth work, and to achieve our other targeted aims. Two trainees and two volunteers who had come to our country through EVS took part in the open meeting of the first three sections. The meeting was started by getting to know each other after dinner on 10th October. Various games were then played to help the young people to get to know each other. After the presentations given on the morning of 11th October, the workshops took place. During the meeting, which lasted four days, information about youth projects carried out by some institutes, and about all youth exchange programmes was given. After that the workshops continued. In the breaks the young participants were able to come together to share their ideas about the meeting. The trainees also took their first step by getting information about the processes, and sharing their ideas about getting involved in youth work.

The Evaluation Meeting for the Project Team and Trainers: During the four days, work related to social responsibility, volunteering, entrepreneurship, and employment was carried out in the workshops in which the project team and trainers were always present. The project team was divided into groups and did some brainstorming about the described topics to improve the level of consciousness. The young participants learned about how to prepare a declaration, and shared their work so that their ideas could be realised as soon as possible after they made the declaration together.

November 1st – November 30th – October 1st – October 30th 2013

The Preparation of the Youth Work Booklet for Young People (Turkish and English Edition): Our youth work has been activated and strengthened by making the procedures more appropriate for the needs of the targeted groups. In cooperation with the NGOs which are putting into practice this youth work, the final step of the “Youth Are Here” Project, the Dialogue Seminar, was performed in order to contribute to public cooperation problems. After this seminar, with the idea of “words fly away, writings remain” we started to prepare the Youth Work Booklet for Young People so we could gather all the work and ideas into one document which would allow everybody to access the resources easily. This booklet was designed as a facilitating material. The Turkish and English editions of this booklet include useful ideas and information for young people.
